Policlinico S. Orsola-Malpighi

XXIX CONGRESSO NAZIONALE ASSOCIAZIONE ITALIANA PER LO STUDIO DEL PANCREAS

Presidente: Lucio Gullo

**Bologna, Aula Magna Policlinico S. Orsola
15-17 Settembre 2005**

PROGRAMMA

Con il Patrocinio di:

Università degli Studi, Bologna

Facoltà di Medicina e Chirurgia, Bologna

Azienda Ospedaliero-Universitaria, Bologna

ASSOCIAZIONE ITALIANA STUDIO PANCREAS

Presidente: V. Di Carlo

Segretario: A. Zerbi

Consiglieri: D. Basso, V. Corleto, L. Frulloni, M. Del Chiaro, R. Pezzilli, D. Russello

PRESIDENTE DEL CONGRESSO

L. Gullo

Istituto Medicina Interna

Ospedale S.Orsola, Bologna

TEL.: 051 636 3615 FAX: 051 392486

e-mail: gullo@med.unibo.it

SEGRETERIA SCIENTIFICA

R. Pezzilli

Dipartimento di Medicina Interna e Gastroenterologia

Ospedale S.Orsola, Bologna

TEL: 051 636 4148 FAX : 051 549653

e-mail: pezzilli@aosp.bo.it

COMITATO SCIENTIFICO

L. Calculli, R. Casadei, G. Gavelli, M. Migliori, F. Minni, P. Tomassetti, M. Ventrucci

COMITATO ORGANIZZATIVO

M. Manca, M.A. Brunetti, G. Ubaldi, D. Campana, L. Piscitelli

ATTESTATO DI PARTECIPAZIONE

A tutti i partecipanti in regola con l'iscrizione all'AISP o con la quota di iscrizione al Congresso sarà rilasciato l'attestato di partecipazione

ECM

Il congresso è stato accreditato di 10 punti

SEGRETERIA ORGANIZZATIVA

OSC HEALTHCARE – Via Santo Stefano, 6 - 40125 Bologna

Tel: 051.224232 Fax: 051.226855

GIOVEDI' 15 Settembre 2005

15.00

Comunicazioni

Moderatori: L.Frulloni, P.Billi

Casi Clinici

1. A mediastinic mass of unknown origin - Rocchetti S.
2. Intraductal endocrine tumour of the pancreas: report of two cases. - Reghellin D.
3. Early pancreatic cancer and Peuts-Jeghers syndrome: a case report. - Zanini N.
4. Old done idiopathic chronic pancreatitis diagnosis: a slippery issue. case report. - Landoni L.
5. Neuroendocrine tumor of the pancreas and GIST: is there a correlation? - Pagogna S.
6. Intraductal oncocytic papillary adenocarcinoma of the pancreas. - Franceschetti L.
7. A case of pancreatic heterotopy of duodenal wall, intraductal papillary mucinous tumour and intraepithelial neoplasm of pancreas, papillary carcinoma of kidney in a single patient. - Nobili C.
8. A misleading intrapancreatic accessory spleen mimicking a nonfunctional neuroendocrine tumor of the pancreas. - Panier Suffat L.
9. EUS-guided puncture of pancreatic duct (PD) with methylene blue (MB) injection for localization of the pancreatic orifice after ampullectomy. - Rossi M.

16.30 **Presentazione Progetti Nazionali AISP**

Moderatori: D. Russello, D. Basso

Pancro Inf - A. Gabrielli

Pancro Gen - G.M. Cavestro

Pro Inf - G. Uomo

Genetica del cancro del pancreas - S. Presciuttini

Tumori endocrini - A. Zerbi

18.00 **Lettura**

Moderatore: E. Roda

Quale ruolo oggi per le Pancreas Unit?

Relatore: V. Di Carlo

18.30 **Apertura del Congresso e saluto delle Autorità**

Lucio Gullo – Presidente del Congresso

Pier Ugo Calzolari – Rettore dell'Università di Bologna

Maria Paola Landini – Preside della Facoltà di Medicina e Chirurgia della Università di Bologna

Paolo Cacciari – Direttore Generale Azienda Ospedaliero-Universitaria di Bologna

Valerio Di Carlo – Presidente dell'Associazione Italiana Studio Pancreas

VENERDI' 16 Settembre 2005**8.30 Comunicazioni**

Moderatori: R. Corinaldesi, P. A. Testoni

1. The quality of life in patients with chronic pancreatitis evaluated using the SF-12 questionnaire: a comparative study with the SF-36 questionnaire. - Pezzilli R.
2. A prospective comparison of secretin enhanced MRCP and EUS in patients with non alcoholic non biliary acute recurrent pancreatitis. - Mangiavillano B.
3. A study of the relationship between idiopathic pancreatic hyperenzymemia and dyslipidemia. - Manca M.
4. IgG type 4 are not specific for autoimmune pancreatitis. - Coato E.
5. Common bile duct strictures due to chronic pancreatitis managed by self-expandable metal stents (SEMS): result of a long-term follow-up study. - Iacopini F.
6. Nosocomial non-biliopancreatic infections in acute pancreatitis. - Menchise A.
7. Hepatobiliary scintigraphy and magnetic resonance cholangio-pancreatography (MRCP) with secretin stimulation (MRCP+S) in patients suffering from recurrent pancreatitis (RP). - Tomba F.
8. The impact of timing on the efficacy of Foy in the prevention of acute pancreatitis: a randomized study comparing prior vs after-ERCP administration. - Manes G.
9. CFTR, SPINK1 and PRSS1 genes mutations in patients affected by sporadic chronic pancreatitis. - Salacone P.

10.00 **Lettura**

Moderatore: G. Biasco

La chemioterapia e la radioterapia nel carcinoma pancreatico.

Attualità e prospettive future

Relatore: G. Boz

10.30 Coffee break

11.00 **Comunicazioni**

Moderatori: D. Cucinotta, P.L. Costa

1. Preclinical studies for the development of active immunotherapy in pancreatic adenocarcinoma. - Filipazzi P.
2. Angiogenesis factors are likely related to the motility behavior of pancreatic cancer cell lines. - Bonora A.
3. Isolation and characterization of pancreatic cancer (PC) diabetogenic factor: 14 aminoacids peptide corresponding to the N-terminal sequence of an s-100 calcium binding protein. - Greco E.
4. Mitochondrial DNA (mtDNA) mutations: new insights for pancreatic cancer diagnosis and prognosis. - Fogar P.
5. Effect of the genetic inactivation of kinase activity of phosphoinositide 3-kinase (P13K) in experimental acute pancreatitis. - Goffi A.
6. Increased levels of interleukin-18 binding protein in the blood circulation of the patients with pancreatic adenocarcinoma: a potential novel mechanism of tumor immune escape? - Tonel E.

12.00 **Tavola Rotonda**

Moderatori: P. Pederzoli, G. Gavelli

Tecniche di immagine nella pancreatite acuta necrotica

Le richieste del clinico - P. Pederzoli

TAC - L.Caculli

RMN - A. Vanzulli

Ecoendoscopia - G. Caletti

Le risposte del radiologo - G.Gavelli

13.00 **Lunch - Visita ai poster** (Moderatori: M. Del Chiaro, V. Corleto, P.G. Rabitti)

14.30 **Tavola Rotonda**
Moderatori: M. Noronha, M. Ventrucci

La qualità di vita nella pancreatite cronica
R. Pezzilli, G.L. Di Sebastiano, A. Mariani

15.30 **Comunicazioni**
Moderatori: S. Pedrazzoli, E. Gaia

1. Obesity and the risk of pancreatic cancer: an Italian multicenter study. - Fantini L.
2. Prognosis factors for resected pancreatic cancer: a proposal for a prognostic score. - Scaltrini F.
3. Surgical and/or conservative management of branch duct intraductal papillary mucinous neoplasms: a prospective study on 118 patients. – Crippa
4. Pancreaticogastrostomy (PG) versus pancreaticojejunostomy (PJ) after pancreaticoduodenectomy (PD). A prospective randomized study. - Molinari E.
5. Recurrence rate according to the resection pancreatic margin histology in intraductal papillary mucinous neoplasm of the pancreas. - Serini P.
6. Preliminary results of a phase ii trial of dose-intense PEFG

(cisplatin, epirubicin, 5-fluorouracil, gemcitabine) in advanced pancreatic adenocarcinoma. - Cereda S.

16:30 **Coffee Break**

16:45 **Comunicazioni**

Moderatori: E. Iovine, A. Malesci

1. Conventional ultrasonography, contrast-enhanced ultrasonography, and contrast-enhanced computed tomography in detection of liver metastases in patients with endocrine tumours of the pancreas a preliminary comparative study. - Serra C.
2. Endoscopic management of external biliary fistula after duodenopancreatectomy. - Mutignani M.
3. Peripancreatic vascular anatomic variations: impact of radiological diagnosis with multidetector computed tomography (MDCT) on surgical strategy. - Pascali E.
4. Magnetic resonance cholangio-pancreatography (MRCP) in asymptomatic hyperamylasemia. - Malagò R.
5. Non-functioning neuroendocrine tumours (NFET): role of CT in the differential diagnosis with ductal adenocarcinoma of the pancreas. – Tapparelli M.
6. Multidetector CT in evaluation of the retroportal pancreatic lamina: correlations with histopathological findings - Mazzeo S.

17.45 **Assemblea Generale**

20.30 **Cena Sociale** (*Palazzo Isolani*)

SABATO 17 Settembre 2005

8.30 Comunicazioni

Moderatori: F. Minni, A. Gabbrielli

1. A second look to anti-TNF treatment in acute pancreatitis (AP): thumb down? - Marotta F.
2. Pancreatic cancer and immunosuppression: effects of interleukin-2 on T-lymphocytes subpopulations in the perioperative period - Degrate L.
3. Laser microdissection in pharmacological study of pancreatic cancer - Funel N.
4. Prognostic value of Ki-67 expression in the cytological identification of pancreatic endocrine tumours: preliminary data - Manzoni M.
5. Islet-1 expression in human pancreas and in pancreatic endocrine tumours - Albarello L.
6. No pathological and/or clinical parameters can predict the response to somatostatin analogues in advanced pancreatic endocrine well differentiated carcinomas - Bettini R.
7. Surgical treatment of non -functioning pancreatic islet cell tumours - Pagogna S.
8. Pancreatic neuroendocrine tumour excision - 25 years experience - Pasquali C.
9. Non-functioning endocrine pancreatic tumours: factors predicting recurrence and outcome - Capitanio V.

10.00 Miniletture

Moderatore: C. Pasquali

Il tumore pancreatico solido cistico papillare

Istopatologia - D. Santini

Chirurgia - R. Casadei

10.30 **Coffee break**

11.00 **Miniletture**

Moderatore: G.C. Delle Fave

Tumori endocrini pancreatici

Terapia medica - P. Tomassetti

Terapia chirurgica - M. Falconi

11.30 **Comunicazioni**

Moderatori: G. Masoero, M. Bernardi

1. Characteristics of pancreatic fistula after pancreatic resections - Frasson M.
2. Therapeutic perspectives of patients with locally advanced pancreatic cancer - Beneduce A.
3. Pharmacogenetics of gemcitabine in pancreatic cancer - Giovannetti E.
4. Role of surgery in pancreatic metastases from renal cell carcinoma - Ortolano E.
5. 18FDG PET is very useful in the follow-up after resection of pancreatic and periampullary tumours - Sperti C.
6. Mesenteric portal vein resection during pancreatectomy for ductal adenocarcinoma of the pancreas: is it worthwhile? - Boggi U.

12.30 **Consegna Premi AISP**

13.00 **Chiusura del Congresso**
