

Dear Colleagues,

it is a great pleasure and honour to invite you all to the Annual Meeting of the European Association for Consultation-Liaison Psychiatry and Psychosomatics (EACLPP).

This will be the first time for Italy to host the EACLPP meeting in its successful "tour" around Europe; after visiting some of the most beautiful and lively European capitals (Oslo, Lisbon, Zaragoza, Berlin, Istanbul, Lausanne the most recent ones), in 2007 it will be then the turn of Bologna.

Some important news from all over the world will affect this Congress, as they are already doing in this field of Medicine, such as the recent official institution, in the US, of the subspecialty in CLP, under the name of "Psychosomatic Medicine" (2003); and the inclusion as members of the EU of other 10 European countries, mostly from East Europe (2004), whose involvement in the field of CLP and contribution to its growth, both in theoretical and clinical aspects, is welcome and to be strongly supported.

Given the incessant need for adapting to changes, integrating contrasts, promoting advances while preserving traditions which animates CLP, the choice of Bologna as city site is highly symbolic: the University Campus which will host the congress is the oldest in Europe, and still maintains a lively, young and continuously developing atmosphere.

We are therefore looking forward to meeting you in Bologna in 2007, for the meeting we are about to organise.

General Informations

Submission of abstracts

Abstracts for contributions to the Congress are warmly welcome. They will be chosen for oral presentations or poster sessions according to the topics and quality of works. A selection of the best abstracts will also be published in the September issue of the Journal of Psychosomatic Research. Because they need to be peer-reviewed, abstracts for consideration of publication in the Journal of Psychosomatic Research must be submitted by April 27th.

Abstracts submitted after April 27th or not accepted for publication on the Journal of Psychosomatic Research will be considered for display at the Congress.

Registration is required for at least one of the authors for publication of the abstract both in the Journal of Psychosomatic Research and in the abstracts book.

Last deadline for abstracts submission is May 31st

The Abstract Form is available from www.eaclpp.org/bologna/ and should be completed according to the given instructions. The abstracts will be automatically submitted to the Scientific Secretariat of the Congress.

Attendance certificate

An attendance certificate will be available at the end of the meeting.
