Kasturi Sen is a social and political scientist with more than 15 years of experience of applied research in public health and teaching on the political economy of health and development. She has taught at London, Oxford and Cambridge Universities and more recently at Institute of Tropical Medicine, Antwerp,

Belgium on health systems and policy, ageing, demographic change and mixed methods in international health research. She has undertaken research in south Asia and the Middle East on the impact of health reforms on equity and access to health care in low and middle-income countries, and on the health effects of conflict.
