An External Perspective”**

This Roundtable is one the closing event of the *Ad Personam Jean Monnet Chair “The Impact of the Lisbon Treaty on European Integration”* Project N. 201 -2788/001. One of the main objectives of the reform process that culminated with the adoption of the Lisbon Treaty was the affirmation of the Union as a credible and effective global actor. Three years after the entry into force of the Treaty, this event brings together EU scholars from different countries and legal backgrounds with a view to assess how the Union is perceived from abroad and to evaluate the concrete impact of the Lisbon Treaty on the promotion of its role and image around the world.
