Bayesian Epistemology in the Age of Disinformation

4–5 December 2025
University of Bologna

4 December — Via Zamboni 38, Aula Tibiletti

17:00-18:00 Registration

18:00-18:10 Lorenzo Casini (Bologna): Opening words

18:10-19:00 Jürgen Landes (LMU) – Identity, Dependence, and Polarization: A Bayesian Study

5 December — Via Zamboni 38, Aula Celio

9:00-9:50 Paolo Garbolino (IUAV) – A Bayesian Analysis of Witness Reliability

9:50-10:40 Klee Schöppel (Groningen) – How Industry Influence on Science Interacts with Assertion Practices

10:40-11:20 Break

11:20-12:10 Dave Lagnado & Greta Sanna (UCL) — Rational or Biased? Examining Belief Updating in Politically Charged Context Using Bayesian Networks

12:10-13:00 Piero Avitabile (IMT) — Bayes, Bias, and Bots: (Ir)rational Updating on Expert Advice

Organizers: Lorenzo Casini (Bologna),
Francesco Bianchini (Bologna), Gustavo Cevolani (IMT)
